

ENVIRONMENTAL AND ENERGY MANAGEMENT POLICY

Pedal Express Ltd is a courier company based in the heart of Nottingham, providing businesses and government departments with a unique and practical delivery solutions that utilises many forms of transport such as bicycles, trains, buses and electric vehicles with the main aim of reducing energy and pollution when carrying out deliveries.

Pedal Express recognises that through its activities and services it may have a positive or negative impact upon the local and global environment. The director and the staff of Pedal Express are committed to researching and evaluating the business activities in order to become more socially responsible for energy use.

In particular, Pedal Express will seek to:

- **Comply with all applicable UK and EU environmental legislation and other codes of practice to which the Company must subscribe to.**
- **Minimise the production of waste by implementing energy efficient practices and systems.**
- **Handle and dispose of waste in responsibly, recycling materials as much as possible.**
- **Reduce the consumption of fossil fuels and the emission of CO₂ gases.**
- **Promote and invest in clean and renewable energy.**
- **Ensure that activities are carried out in a manner that reduces impact on the local and global community.**
- **Raise awareness of environmental issues amongst staff, customers and suppliers.**
- **Lead by example, offering practical solutions in an industry sector that is highly dependant on the consumption of fossil fuels.**

Pedal Express management will review the company's environmental and energy management policy annually to ensure its continuing suitability and effectiveness. It is the responsibility of the management to make the necessary resources available to meet the policy commitments.

Pedal Express will communicate its environmental policy to all employees or contractors of the company and it will be made available to the public.
